

Air-Arms TX200 , I'm selling this with a heavy hart to fund a new project. This TX200 is not getting used much any more and needs to go to a new home. This was originally owned and used to good effect by Jors Mallan (Bex). If he had it from new, then I was the 2nd to own and shoot this exelent air rifle. In my opinion there is no springer more cable in terms of acuracy. All original internals. Still shoots cositent and accurately. Simply the best trigger I have ever had the plesure of using. I am slightly negotiable on the asking price of R9800. Contact me on 076 402 1928
