Additional Information: The Lynx LX3 3-12x56  
SA Hunter Riflescope  
Illuminated Reticle has  
brilliant optics. It features  
extra low dispersion glass  
and the latest  
anti-reflective lens  
coating technology.  
Therefore, gives you  
brilliant image clarity and  
brightness. Set the scope  
to 8x and the scope  
transmits more light to  
your fully dark-adapted  
eye than it can use. This  
extends the maximum  
distance you can identify  
targets at at night by a  
factor of eight. Magnification
