Listing details

Title: Ruger SR762 + Accessories For Sale

Price: R 40,000.00

Make: Ruger

Model: SR-762

Calibre: .308Win

Condition: Used

Description: This is a reliable Gas
Piston Operated Rifle,

normally priced R10 000 to R20 000 above today's Direct Impingement AR's, selling for less than a new Direct Impingement AR10 and more reliable due to its operating system and adjustability to running suppressors.

This Rifle has fired in the range of between 100 to 120 rounds with various types of factory ammo and just to zero reloaded ammo. Has been mainly used for some practice at the range and for warthog hunting trips. Rated as per reviews below for less than 1MOA with some types of factory ammo. I am selling this rifle with iron sights, Ruger carry bag, bird cage, 6 x 20 round magazines and 100 x loaded once 308 rounds, using 150 grain Nosler Custom Competition Bullets, Lapua Brass, CFE223 powder and CCI primers + what is left of the nosler 150 grain bullets. The muzzle brake in the picture is not included, please DM me for more info. Reason for selling is I do not go shooting often enough and the only upgrade I would recommend that this AR would benefit from would be a two stage Geiselle Trigger from EuroOptic Stellenbosch going for

about R4999.

Review:
