

SUMATRA 2500 500CC -5.5MM , SUMATRA 2500 500CC -5.5MM PCP PELLET AIR RIFLE The Sumatra 2500 500cc is one of the most popular power pcps due to the balance of air volume versus power. With the power adjustment wheel the shooter can tailor the velocity output according to the target size. The 500cc models give between 40 to 60 accurate shots depending on power setting before an air top-up is needed. Velocity is around 1180 fps with the Samyang/Eunjin 28.4 rounds round nose pellet and 1080 with a 32.4 grain pellet. These rifles do need silencers if sound is an issue to the shooter. Supplied with: Scope, Silencer and air connecting valve. Adjustable velocity wooden stock beautiful engraved art work underlever winchester cocking action 500cc cylinder 5.5 caliber single shot or magazine operated 6 shot magazine adjustable cheek rest
