

Tanfoglio Ultra P19 with Adjustable Rear Sights, I am selling my Tanfoglio Ultra in order to free up some cash for another project. The firearm comes with an adjustable rear sight attached and is finished in nickel plate on the slide, with the frame constructed of stainless steel. Despite some minor wear from use, the firearm shoots extraordinarily well (I have been able to shoot accurately to around 75 metres), and has never had a serious malfunction. The barrel is in pristine condition. A holster and spare magazine are included.
