Ideal for Competition Shooting and Hunting

#### DESCRIPTION

Developed in conjunction with the US Palma team, the Lapua [.308 Winchester Palma Brass Cases](#) features the small rifle primer that is designed to deliver enhanced long-range rifle shooting accuracy for the most demanding competitive rifle disciplines. Lapua's .308 Palma Win. brass is a praised success among rifle shooters everywhere. The base, body and neck of Lapua brass have been designed to maintain exact tolerances over multiple reloading cycles. Advanced metallurgical research and manufacturing techniques ensure that Lapua cases are leaders in uniformity and quality.

The Lapua case heads are drawn exceptionally hard for unmatched reloadability and for an exceptionally long life cycle to serve top shooters time and time again. The brass dimensions remain constant and will hold primers tight in their pockets even after many reloadings. The brass body section of Lapua cases is hard and resilient for unmatched durability. It is easy to extract after firing, whether the reloader opts for full sizing or neck sizing only. Strict tolerances in concentricity and wall thickness are used in manufacturing of the case neck. The neck and shoulder of Lapua cases are annealed to withstand repeated reloading.

Lapua cases are the best in the world, a statement supported by all top marksmen. Lapua brass is

manufactured to be reloaded, again and again. For reloaders who require absolute reliability from their ammunition, Lapua's pistol and rifle cartridge components is the answer.
