Additional Information: If you ask any hunter they'll probably tell you they have filled more tags in the low-light hours than any other time. With that said, it would be wise to design a scope to excel in early-morning and late-evening light. With the Talos scope with Athlon Advanced multi-coated lenses for clarity and brightness in low light, you'll be able to add precious minutes to every hunting day. These scopes will give you great versatility whether you are hunting whitetails in the dense southern pine forest of Georgia, or prairie dogs on the wide open ranges of Wyoming. With one-piece tube

design, the Talos line includes an assortment of specialty scopes for big-game, varmint, MSR's, 22 rimfire, slug, black powder, and turkey hunting. This Talos 6-24x50 Model has BDC 600 IR second focal plane illuminated reticle in it. The BDC600 IR reticle will work with any of the following ammunition loads: .223 Win 55gr / .243 Win 95gr / .25-06 Rem 115gr / .270 Win 130gr / .270 WSM 150gr / 7mm Rem Mag 150gr / 7mm WSM 150gr / .300 Winchester Mag 180gr / 300 WSM 180gr / .308 Win 150gr / .338 Win 200gr
