

Leica ER 6.5-26x56 LRS (Ballistic), Leica ER 6.5-26x56 LRS (Ballistic)
Designed specifically for long range shooting. Exposed target turrets. High magnification. Exceptional high level of light transmission. Very high contrast. Minimal colour-fringing ensures that images seen through the scope are of the best optical quality, even at distance. Thanks to its finely tuned elevation tracking, users can achieve absolute precision when sighting in and setting the planned point of impact. Long eye relief, making it safer for use with high recoil rifles
