Address: Johannesburg North,
South Africa

Country: South Africa

State/Region/Province: Gauteng

City: Johannesburg

Additional Information: A great scope for African bushveld. The glass has good clarity and the scope has served me well on my 30-06. The scope is in fantastic condition and in perfect working order. I am selling the scope along with the rings and the ring bases (bases will fit a Bruno, CZ550, CZ557). The reason I am selling is because I have recently upgraded. Regrettably I do not have the original box, we moved two months ago and it has since gone missing.
